  - b. Listen to the first video of the age group to which your loved one corresponds. In this way you can determine if the class fits the needs of the student. If you think it is too advanced, checkout the previous age group or if you think it will not captivate the attention of the student, try the next age group.
  - c. Prepare beforehand to view the class:

- 1) Chose a location which is free of distractions, e.g., television, a lot of human traffic, outside noise.
  - 2) Set up the device on which the class will be played, with a comfortable chair and table for the student.
  - 3) Place on the table paper, pen or pencil, and a Bible. Depending on the age group, you may wish to have coloring materials, safe scissors, and construction paper. If there are special needs for that particular class, there will be a note under the specific video.
  - 4) Have the student sit at the table five minutes prior to your beginning the recording so that they have the opportunity to unwind and focus.
  - 5) Promote and demand respect for the teaching of the Word of God from an early age. If your loved one has a limited attention span due to age or other factors, better to show the class in two or three parts rather than for them to develop a “whatever I want” attitude with the teaching of the Word of God.
6. With each class we provide supporting documentation used by the teachers so that you may, if you so desire, review the class with your loved one at a later time. <https://tallercitodealmas.org/contenido-digital/>.
